

All Utility Departments,

Right-of-Way is the property of Sevier County Highway Department, its citizens, and users. Sevier County has over 900 miles of roads, with the bridges and roads being valued at over 74 million dollars.

Sevier County Highway Department will cooperate fully with all utility departments doing work on our Right-of-Ways. We ask that all workers treat the right-of-way with the upmost respect, as if it were your own personal possession. With that being said, any damages to the right-of-way will need to be repaired back to its original condition at the expense of the utility department that caused the damage.

Sevier County Highway Department, its employees, and the citizens of Sevier County thank you for respecting and protecting our right-of-ways.

Sincerely,

Jonas Smelcer
Road Superintendent
